

A Website Just for Your Residents

Respage Resident Portal and Social Networking Tool

Introducing Respage Portal

Respage Portal is a resident portal and social marketing tool that helps you enhance communication with your residents. Property managers can post announcements and newsletters. Residents can make maintenance requests, communicate with the property manager or pay their rent online. Respage Portal also features local search and integrates with Twitter, Facebook, your blog and other social networks.

How it works

First, we ask you a few questions about your community. Next, we create a Respage Portal for your community and send you the link so you can add it to your website and other resident communications. We can also create a private label version of Respage Portal on your own domain name. With our full service version option, simply email us your updates, and we'll take care of everything.

Get started today

Call us to schedule a meeting. Within 3 weeks, we will have your Respage site up and running.

Give us 5 minutes of your time, and we'll take care of the rest.
