

Turnkey Social Media Solution

Resident Community With Facebook and Twitter Posting Service

Introducing Respage Community

Respage Community enables you to have an effective, dynamic social media presence that you can manage in just a couple of minutes a week. Respage Community utilizes a proprietary resident website platform, your social networks (e.g. Facebook and Twitter) and our customer service team to facilitate communication, improve customer service, resident retention and attract new residents.

How it works

First, we ask you a few questions about your community. Next, we set up a Respage Community site for your residents. We can also create a private label version of Respage on your own domain name. With our full service version option, simply email us your updates, and we'll take care of everything, including making changes to your Respage Community site and posting to Facebook and Twitter.

Get started today

Call us to schedule a meeting. Within 3 business weeks, we will have your Respage community site up and running.

Give us 5 minutes of your time, and we'll take care of the rest.
